TGB EXPRESS 150CC

The only purpose-built Delivery Bike

WITH ITS 150L CARGO BOX AND ITS EFFICIENT AND EFFECTIVE BUILD THE TGB EXPRESS BIKE MAKES SURE YOUR PRODUCTS ARE SAFE AND FRESH WHEN THEY REACH YOUR CUSTOMERS.

Looking for a more efficient delivery and promotional vehicle?

As the meaning of the word, Delivery scooter has been specially designed for commercial use. It has purpose built frame for low gravity center and adapted clear-twin shock absorbers. Instead of one main stand, we equipped L/R latching side stands that have built-in engine cut off. Top case having 150L displacement would never limit your usage at all. Foot-rests and padded seats are included for driver comfort and improved handling/weight distribution. Maybe we should call it the most luxury scooter for commercial use.

The TGB Express is the only scooter designed for delivery and commercial purpose. With a large 150 liter top box and lower center of gravity for better balance, With its mounted heating switch The TGB Express can still send you hot and delicious food in time. Its big cargo box allows it to carry twice the weight capacity of other bikes customized for delivery, and its easy operation makes TGB Express the most efficient deliver vehicle.

Commercially Built

Strong Taiwanese Built
